The DESIGN + AI Summit

A CreativePro Online Event
December 8–9, 2023
Every revolution offers both risk and opportunity—and we are just at the beginning of an AI revolution that will affect every aspect of graphic design, writing, art, social media, publishing, and communication. As the saying goes: luck favors the prepared.

AI is a tool you need to master, not a threat. AI won’t replace your job, but someone who knows AI better than you might!

That’s why we created The Design + AI Summit, the HOW-TO event to help designers leverage the power of AI to create quality work more efficiently, being held online December 7–8.

With 12 great sessions from internationally renowned experts, you will take away practical techniques to help you master a wide range of Generative AI tools.

If you want to discover how you can thrive with AI tools, you can’t afford to miss this event!

“CreativePro Events are truly a family community, featuring dynamic sessions across all creative platforms presented by world-class experts.”
—Ren Reed
Art Director/Graphic Designer, Reed Design

“I got so much valuable information on how to improve my skills knowledge. I cannot express enough how important and valuable CreativePro Events have been for my professional development.”
—Suzanne Morikawa
Marketing and Communication Specialist, University of California
